ANNUAL SALE OF
HATS!

You may feel perfectly at ease upon one point when buying hats at
this sale—everything we sell is a real bargain. If there is a thread
of cotton in anything we know we tell you of it. Fair, let it be a
good thing to know that when you buy hats, it is a line you get for
there are so many clever imitations of cotton nowadays, it is hard even
for a line expert to detect them.

Wednesday Morning,
February 1st, the new lines for '99 get their first showing, and a splendid
array of beauty awaits you. Excellent as has been the linen busi-
ness this winter, the new line of hats, the offerings in this sale are expected to
better all former accomplishments. Certain it is that no such linen
values ever greeted the public of Maysville before.

THE CHIT OF

Peace Treaty Will Be Debated in the Senate This Week and Disposed Of.

SPEECHES WILL BE MADE EVERY DAY.

Friends of the Treaty are Sanguine of Its Passage and Will Accept No Compromise.

In the Senate a Vote Will Be Taken on the Army Bill Tuesday Afternoon. The River and Harbor and Military Academy Bills.

WASHINGTON, Jan. 30.—The senate will devote practically all of the time this week to the consideration of the peace treaty. Senator Allison, chairman of the committee on appropriations, says he will not interfere at any time with the consideration of the treaty by asking to have appropriation bills taken up, and as a consequence the treaty will have complete right of way.

This week will see the close of the memorable debate, both in executive session and in open session, as the vote is set for 3 o'clock a week from Monday. Notice has been given for oral speeches for every day except Monday of the present week. Senator Berry will speak Tuesday, Senator Spencer Wednesday, Senator Rawlins Thursday, Senator Money Friday and Senator Chilton Saturday. The speeches will be heard upon the various resolutions on the general question of expansion and will be delivered in open session. They will however be preceded by the reading of the treaty and will afford senators an opportunity to say openly what they would say in secret session if the resolutions were under consideration.

There will be an effort to get the speeches in before 3 o'clock each day in order to permit the closing of the doors at 4 o'clock in accordance with the unanimous agreement to that effect, when the treaty will be taken up formally and the executive consideration of the subject proceeded with.

The friends of the treaty are still most sanguine of success, and most to the assurance that they will accept no compromise. Others express willingness to accept some compromise as that of Senator Sullivan. Those professing to know what is the policy, so force the treaty to a vote, are taking action to compromise proposition, and that if the treaty should by any chance be beaten, to move to reconsider and then to consider the question of accepting some compromise like the Bacon resolution before final adjournment in March. Almost a month of the session will be left after the vote of Monday week, so that if the senate should prefer to accept the treaty with a resolution of construction and instruction to postponing action for an extra session, it could do so.

Interest centers in the army bill in the house of representatives during the early part of the week. The final vote will be taken at 3 p.m. Tuesday. Prior to this debate will be under the five minute rule in the main, although sufficient time has been reserved to give Mr. Bailey and some of the other leaders an opportunity for extended speeches.

Chairman Hull, of the military committee, is confident of the bill, saying that the republican opposition will not exceed eight, while several affirmative votes will come from the democratic side. The opposition will direct its efforts towards having the bill recommitted.

With the army bill disposed of the house will turn its attention to the important river and harbor bill and then to the military academy bill, which will be taken up on Wednesday.

The military academy bill is not likely to take more time than is required to read it through. No expert programme has been fixed for the rest of the week, but Chairman Mercer, of the committee on public buildings and grounds, has been preparing for a hearing on some of the public building bills now pending, and he is likely to get a day on public land questions.

The Hawaiian bill is the important piece of general legislation which will be agreed to a hearing, although its friends may let it go over until next week.

Gen. Eugene Cullen of Gordon has recommended clemency for the charges of soldiers who were in the line of the court.

he adopts such measures as will insure their rights.

"We hold that the rule of majority is contrary to the spirit of our institutions and destructive to our rights."

"We hold that the only free and just government is that in which the law-making bodies are composed of direct representatives from such industries or occupations as have a majority of the votes in the congressional and legislative districts defined by our constitution and the laws of our states."

"With an abiding faith in the truth and justice of our belief we appeal to every farmer in the United States to join hands with us in effecting our purpose, which is the nomination and election of farmers as members of congress and farmers as members of our legislatures. Agriculture being the chief industry in the United States the animosity and importance of our interests demand prompt and energetic action. To that end we urge an expression of opinion from farmers of this country as to the necessity of holding a convention at the earliest and most convenient time and place to discuss our condition and to adopt such measures and take such action as may seem necessary."

A brief discussion ensued over the proposition that the representation in the proposed national convention should be one delegate for each district sending a representative to the lower house of the legislature in the respective states.

A number of offers from farmers and other organizations in various states addressed to A. W. Holden in the office of the new organization, were read.

THE FALCON ISLAND.

In a Quicker Boat They Attempted to Cross Lake Erie to Catch the Escaped Boat Steamer.

CHICAGO, Jan. 30.—The Tribune's Toledo O. special says: The loss of an active fishery in Lake Erie is reported here Sunday. On one of the islands in the Bass group lived a family named Kobson. The family consisted of the father, mother, a daughter, 30, a son of 8 and a hired man, Henry M. Martol.

The little boy died and his parents determined to take the body back to Canada, whence they came. A skinner boat was used, the entire family starting on the perilous journey. The latter dinker boat has been reported found recently near Fort Burwell, on the Canadian shore, is presumed to have been Mrs. Kobson. The other bodies have not been found.

SAN FRANCISCO, Jan. 30.—The news has been brought here from Australia that the British man-of-war Penguin has just returned to Sydney, N. S. When relocated by the Penguin's officers, they discovered that the island is now three fathoms under water.

The officers of the Penguin also succeeded in taking the temperature of the ocean at a greater depth than ever before. Hitherto where the thermometer got down a certain distance it was invariably broken. On this occasion the thermometer was sunk down 4,762 fathoms, where the temperature was found to be 35.5 degrees, while on
